

Serial Nr.: 10/829,115
Art Unit: 2811

04147-UPL

AMENDMENTS TO THE DRAWINGS:

FIG. 5B is amended to correct the height of conic bump 510 as marked in the attached annotated sheet so as to be consistent with the drawing in FIG. 5A.

FIG. 6B is amended to correct the height of the trapezoid bump 610C as marked in the attached annotated sheet. The height should be identical to the height of the trapezoid bump 610D.

FIG. 6C is amended to correct the height of the trapezoid bump 610E as marked in the attached annotated sheet. The height should be identical to the height of the trapezoid bump 610F.

FIGs. 7A and 7B are amended to include the NCF 206, the second substrate 108 and the electrode 103 as marked in the attached annotated sheet.

REMARKS

In the Office Action, claims 1, 4-8, 11, 13-16 and 23-29 are rejected under 35 U.S.C. §102(b) as being anticipated by Tagusa et al., and claim 12 is rejected under 35 U.S.C. §103(a) as being unpatentable over Tagusa et al. in view of Pasch. Claims 2, 3, 9, 10, 17-19, 21, and 22 are objected to as being dependent upon a rejected base claim but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

In response, claims 2, 9 and 17 are now rewritten in independent form including all of the limitations of their base claim 1. Claims 2, 9 and 17 are now allowable.

Claims 3-8 are amended as dependent claims of the allowable claim 2. By virtue of dependency, claims 3-8 are also allowable.

Claims 10-13 and 16 are amended as dependent claims of the allowable claim 9. By virtue of dependency, claims 10-13 and 16 are also allowable.

Claims 18-20, 23, and 27-29 are amended as dependent claims of the allowable claim 17. By virtue of dependency, the amended claims 18-20, 23, and 27-29 and the original claims 21-22 are also allowable.

Claims 1, 14-15 and 24-26 are cancelled.

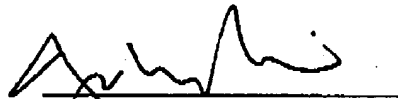

The above amendment has been made without prejudice. The unclear limitations pointed out by the examiner are corrected in the above amendment. Claims 2-13, 16-23

Serial Nr.: 10/829,115

and 27-29 are now in full condition for allowance. The specification has been amended to correct a few editorial and grammatical errors. FIGs. 5B, 6B, 6C, 7A and 7B are amended to correct some drawing errors as shown in the attached annotated sheets showing the marked up changes for approval. Replacement sheets of the amended drawings will be re-submitted by post office mail after the application is allowed to ensure adequate quality for patent publication. Applicants respectfully request that a timely Notice of Allowance be issued for this application.

Respectfully submitted,

Jason Z. Lin
